

APPLICATIONS

Eni Lavanda Universal is a 'food grade' degreasing and multipurpose cleaner product, highly penetrating solvent-based. It effectively removes dirt, oil residues, grease and grime from surfaces, tools, machinery used in processing of foods, pet food, pharmaceuticals, cosmetics and in environments that require high levels of cleanliness.

Eni Lavanda Universal is formulated exclusively with additives listed in the FDA Group 21 CFR 178.3570 and they are free of genetically modified materials, main allergens substances like nut oil, soya oil, dairy industry derivatives and animal derived materials.

CUSTOMER ADVANTAGES

- Meets the requirements of the HACCP (Hazard Analysis and Critical Control Point) System thanks to NSF H1 (incidental contact with food) registration.
- Penetrates deep through dirt, grease and sludge.
- Quickly removes oil and grease.
- Evaporates easily, dries quickly without leaving residues on the surfaces.
- Compatible with the elastomers normally used in food machinery lubrication systems.

SPECIFICATIONS - APPROVALS

- NSF H1 - n° 152917

CHARACTERISTICS

Properties	Method	Unit	Typical
Base oil type	-	-	Hydrocarbon
Propellant type	-	-	Hydrocarbon
Solvent type	-	-	Isoparaffins
Temperature range	-	°C	-30/+40

WARNINGS

- **Eni Lavanda Universal** should be stored apart from other lubricants, chemical substances and foodstuffs and out of direct sunlight or other heat sources. Store between 0° C and +40° C.

HANDLING INFORMATION

- Shake well before use.
- Spray on the parts to be treated from a distance of 15-25 cm.
- Allow some time for penetration before removing the dirt.
- In case of persistent fouling, reapply the product.
Advice: It is recommended to perform a compatibility test before use on painted surfaces, plastic, rubbers and seals.
