

APPLICATIONS

Eni Dicrea S 150 is a synthetic lubricant based on polyglycols specifically formulated for compressors of natural gas, LPG, ammonia, chlorine-fluorine derivatives, etc.

Eni Dicrea S 150 is particularly recommended for the applications where it is expected that the compressed gas characteristics are not impaired by the lubricant presence (e.g. in polyethylene compressors to preserve final product transparency).

CUSTOMER ADVANTAGES

- Prevention of deposits and sludge formation resulting in improved operative conditions thanks to an effective thermo-oxidative stability
- Compatibility with rubbers commonly used for seals
- Good lubrication ensured even in presence of humidity

SPECIFICATIONS & APPROVALS

- ISO-L-DGC
- ISO-L-DRB
- Sulzer Burckhardt

CHARACTERISTICS

Properties	Method	Unit of Measure	Typical
Appearance	APM 27	-	clear
Density at 15°C	ASTM D 4052	kg/m ³	1054
Viscosity at 40°C	ASTM D 445	mm ² /s	150
Flash point (COC)	ASTM D 92	°C	285
Pour point	ASTM D 97	°C	-33
